- 1.0 ANCC pharmacology contact hour
- 1.0 Participation

### OVERVIEW

NSCLC is a complex disease with many variables to consider for systemic therapy selection, including the rapidly growing number of predictive biomarkers. Frequently emerging new data can make it challenging for busy health care professionals to stay up-to-date with the latest systemic therapy recommendations and the data behind them.

## Hitting the Right Target: Updates in Biomarker-Directed Therapy for Non-Small Cell Lung Cancer

PRESENTED BY:

**Kaiwen Wang, PharmD, BCOP**  
*The University of Texas  
MD Anderson Cancer Center*

### LEARNING OBJECTIVES:

- Recognize when and for which biomarkers testing is appropriate based on the stage of NSCLC.
- Summarize the systemic therapy recommendations for targetable biomarkers in NSCLC.
- Discuss how the presence of select biomarkers affects treatment recommendations for immune checkpoint inhibitors in NSCLC.

### TARGET AUDIENCE:

This program is designed to meet the educational needs of physicians, nurses, nurse practitioners, pharmacists, physician associates and other health care professionals who treat patients with cancer.
